

**Don Davey**  
Senior Analytics Consultant  
FIRST DATA

Don Davey helps First Data customers increase performance and reduce cost using analytics and other technologies. He also works closely with First Data's product team to combine and design solutions that suit the evolving needs of the accounts receivables industry. Don has nearly 20 years of experience in the collections industry, ranging from running a collection call center operation in Germany to helping develop cutting-edge collection analytics and decisioning products. Don has served in senior positions at Intelligent Results (acquired by First Data in 2007), Citicorp, Nationwide Credit, GE Capital, Asset Management Outsourcing, Fair Isaac and Regions Financial. Don earned his bachelor's degree from the University of Idaho and served six years as an officer in the United States Marine Corps.
